# Chenxu Liu

480-410-9036 | cliu241@asu.edu

**EDUCATION: Arizona State University**          **Bachelor of Science in Computer Science**

**RELVANT COURSE:**

Principles of Programming Lang                  Object-Oriented Program & Data
Operating System; Information Assurance         Distributed Software Development
Intro to Programming Languages

**PROJECT:**

Develop web service using Restful service with C++                              (2020)
Game development using Godot script with NASA                                   (2020)
Develop and construct compiler that run code and generate output                (2020)
Secure house project using C++ in Linux to implement security polity            (2019)
Shopping market GUI using Java FX                                               (2018)

**TECHNICAL SKILLS:**

Intermediate level with Java, C# and C++

**ACTIVITIES:**

Women in computer science programming competition, solving programming problems in Java
and C++                                                                        (2019)

**OTHER EXPERIENCE:**

Data analysis project, leading team of four to perform data collection and analysis using
MINTAB and Excel                                                               (2018)
Lego car project, Programming in MATLAB to solve random maze                   (2017)
